There is no Japanese hotel in Tokyo or Yokohama suitable for the accommodation of distinguished foreign visitors to Japan, except the Kolumbiikan. A few high officials now propose to erect a large hotel on the hill at Yokohama, which may be used for a club, while being at the same time an elegant building for the reception of native guests. The cost is estimated at 280,000 yen. *Japan Gazette Translation.*

Saw the *Japan Mail* of the 1st instant.—The hall given by the Minister President of State and Countess Ito last Saturday deserves more than the usual stereotyped notice, for the sake of the excellency of the arrangements. It may claim the credit of being the first ball in Tokyo at which the guests, ladies and gentlemen alike, were able to sit down together to supper, and far excellently, without being obliged to wait on one another. We don't know how many distinguished guests were probably here, but, out of the military and civil, there were only eight. There were, however, to look after every one in the most efficient and orderly manner. This exceptional fete, added to the spaciousness of the rooms, the beauty of the decorations, and the exuberance with which the Japanese ladies kept up the dancing, made the entertainment a brilliant success.

A STRIKE IN HONGKONG GAOL.  
Her Majesty's prisoners to the number of 70 or 80 struck work in Victoria Gaol early this morning. The cause of their discontent was the decreased supply of pork under the new regime started by Major-General Gordon. The men were all armed with bamboo, and the rebellion seemed at first likely to assume serious dimensions. By a little tact, however, and with the assistance of the European prisoners, Mr Jones, the head turnkey, managed to get the rebellious men back to their cells. When order was restored some of the men reported of their procedure and offered to go back to work. The occurrence was afterwards reported to the Acting Superintendent, Mr Mitchell Innes, at whose orders no less than 64 of the rebels received 12 strokes with a rattan—a summary procedure which will doubtless have the effect of preventing the strikers from renewing the disturbance. The rebellious crew were all long sentence men, who have hitherto been only too well fed. That they feel the change is only what was to be most deair-

THE STRANDING OF THE  
"HANGCHOW."

Some details regarding the stranding of the China Navigation Co.'s steamer *Hangchow* have come to hand by the arrival yesterday of the Douglas Co.'s steamer *Nanota* from the coast ports. It appears that the *Hangchow* ran on the rocks at 2 a.m. on Wednesday, the 26th instant, during a dense fog, on Tsin-sea Island, about six miles from Amoy harbour, quite close to the shore and immediately under the light-houses. It was about high water at the time, and the weather being boisterous the vessel was driven higher upon the rocks and when the *Nanota* came up she was immovably fixed. No attempt was therefore made to tow the vessel off, and her fore holds and engine room are filled and emptied as the tide rises and falls. Finding that neither passengers nor crew were in danger, communication with the shore being obtainable by means of a gangway at all states of the tide, the *Nanota* proceeded to Amoy. No sooner was the news circulated than lighters and steam tugs were despatched to the scene of the disaster, and on their arrival salvaging operations were commenced immediately. A Chinese gunboat was also despatched to protect the vessel from looters. It is stated that the compradores and tallymen of the ship were killed by being jammed between the *Hangchow* and one of the cargo boats. When the *Nanota* returned she found the *Hangchow* still further damaged by being bumped upon the rocks and that she had lost her rudder.

Col. Anderson then said—In receiving this musketry shield on behalf of the Regiment, I pledge myself that the rules and conditions will be carried out to the letter. The rest remains to you to strive to your utmost to get your names inscribed upon this regimental heirloom so that they may be handed down to future generations.

The shield was then held up by the Regiment, and A Company was brought round in front of the General and Staff, having the new draft along with the band on the opposite flank.

## SPEECH BY GENERAL CAMERON.

A parade of the 58th Regiment was held on the Parade and Cricket Grounds this morning to receive a challenge shield, a gift by Col. W. D. Bone, O.B., late Commanding Officer of the Regiment. The total numbers of men on parade—about 900—was the largest that has yet turned out in Hongkong. The new draft marched into the Parade Ground where the rest of the Regiment had been drawn up in line by Major Ellis. Col. Anderson then placed himself at the head of the Regiment and received the General and his staff, consisting of Major F. J. W. Davies, Lieut. T. C. F. Somerville, Major W. F. D. Cuthbertson, and Lieut. J. Little. The men then broke into column to the right and formed quarter column with the two centre companies.

Col. Anderson then said—Your Excellency, officers, non-commissioned officers and men of the 5th Regiment, a parade has been held to-day to receive a cup from your old commanding officer Col. Bone and the pleasing duty of presenting it has devolved on me. During his long service (for 29 years) in the Regiment all his thoughts were for your welfare and happiness. And

when he was appointed to command of the troops in Niala it was a sad blow for him to part from old comrades and old soldiers, with whom he had served the best part of his life. His career in the latter part of his service is well known to many of you, especially in the Zulu and Boer campaigns. In the Zulu war he was severely wounded in the battle of Ulundi, and for his service in that despatch and received the brevet of Colonel. In the Boer campaign he was, on the death of Sir George Collié, placed in command of the troops after the ill-fated Majuba Hill, and succeeded by his judgment and tact in reorganising the remainder of the forces at Mount Prospect at one of the most trying periods in the annals of British history. Later on, when commandant of Fort Napier and the troops in Natal, he gained the confidence and respect of the civilian population. By this gift he shows that he has not forgotten his old corps, and he aids, with yet another incentive, in keeping up the high *esprit de corps* for which this regiment has been so famed. Cherish all regimental traditions all you, and most especially you who have lately joined our standards and profit by the words of encouragement written by the donor of this magnificent trophy. I will now read you an extract from his letter, with the conditions on which the competition was to take place.

The extract was then read by Col. Anderson, as follows—

In presenting this small gift to the Regiment, I hope that it may be accepted as a token of my esteem and regard for the Regiment, as well as for the many valued friends and comrades whom I left behind me in it. I hope that it may also be accepted as a means of recording in some slight measure, my appreciation of that high tone, good feeling, and soldierlike spirit which prevailed so conspicuously amongst all ranks during the period of my command. I have it always esteemed, and highly, and which I still constantly remember with fondness of the want of the intention that it should be competed for annually by teams selected from the Companies of the Regiment, but as musketry practice is constantly improving and developing I do not think it would be advisable on my part to lay down any hard and fast conditions as to the terms of competition; on the contrary I would be glad that the Commanding Officer for the time being, should frame from time to time, such Rules and Conditions as he may deem desirable and suitable for carrying out the competition. With my best wishes for the Regiment, and with kindest regards and remembrances to all old friends who still remain in it.

I remain, Yours very sincerely,  
W. D. BONE.

Col. Anderson then read the conditions on which the shield was to be competed for. They are as follows—

1.—The Shield to be competed for by teams of 6 or 8 from each Company.

2.—The conditions to be Service Riffs. Seven shots at 200, 500 and 600 yards, one sighting shot at each range, position kneeling or standing at 200 yards, prone at 500 and 600 yards.

3.—Not more than two Companies to fire on any one day, and any two Companies may by arrangement compete against each other.

4.—After all have fired, the four winning teams will fire off the final Match, thus, if all the Companies are at Head Quarters, it will take seven Matches to decide the contest.

5.—Should any Company be absent on detachment and unable to compete, it will be entitled to send a team to fire against the winning team at Head Quarters, but in any case the result must be decided by the 31st December of each year.

6.—It will be observed that under this arrangement a Company on detachment will only have to win one match, but this will on the other hand be counterbalanced by their want of practice and knowledge of the range.

7.—Competitors may be of any rank (Officers included).

8.—Any Competitor may be struck out of a team and another substituted after Match is over, to shoot in a subsequent Match, but not during a Match. A Match to be a competition between two Companies (200, 500 and 600 yards, to be considered one Match).

9.—The name and Company of the winning team will be inscribed on the Shield each year, also the name of the individual making the highest Score in a Match irrespective of the team to which he belongs, or the Match in which he made it.

10.—The object of these conditions is partly to give practice for the Army Inter-Regimental Competition, and with this view the distances, positions, &c., have been obtained by means of a gangway at all states of the tide, the *Nanota* was at Amoy. No sooner was the news circulated than lighters and steam tugs were despatched to the scene of the disaster, and on their arrival salvaging operations were commenced immediately. A Chinese gunboat was also despatched to protect the vessel from looters. It is stated that the compradores and tallymen of the ship were killed by being jammed between the *Hangchow* and one of the cargo boats. When the *Nanota* returned she found the *Hangchow* still further damaged by being bumped upon the rocks and that she had lost her rudder.

We have not heard what efforts are being made to save the vessel, but we believe a pump has been sent from here by Messrs. Butterfield and Swire, the agents, to be ready for any emergency.

PRESENTATION OF A SHIELD TO  
THE 58TH (NORTHAMPTON-  
SHIRE) REGIMENT.

Col. Anderson, addressing General Cameron, said—In asking you to present this musketry shield on behalf of the Regiment, I pledge myself that the rules and conditions will be carried out to the letter. The rest remains to you to strive to your utmost to get your names inscribed upon this regimental heirloom so that they may be handed down to future generations.

The shield was then held up by the General and the band on the opposite flank.
